

REACTION TIME TESTER

Model RT-2S Simple Reaction Time Tester

The RT-2S Simple Reaction Time Tester is a lightweight system designed for easy mobility, setup and use. Convenient Operator Control Box allows test operator to control and reset each test with just the touch of a button. The Test Light Box includes large Illuminated Red and Green Lights (Yellow Caution Light configuration available).

The RT-2S Simple Reaction Time Tester includes: Test Light Box with Illuminated Red and Green Lights, Operator Control Box with built-in Digital Time Display, Foot Pedal Module with oversized, non-skid steel floor plate for stability and an A/C Adapter (not shown). Setup requires simple plug-in connections to make the system operational in just a few seconds.
